James 1:2-11

1. What is produced by the “testing of your faith?”
2. What is the benefit of perseverance to “finish its work?” What type of response to trials determines whether perseverance will finish its work?
3. Share about a time when you allowed perseverance to finish its work. Share about an experience when you stopped the process too soon. What did you learn from each experience?
4. In light of the context, what type of wisdom is James referencing in verse five?
5. Describe how an experience when wisdom helped you navigate a season of trial?
6. In verses 9-11, James describes a paradox between resources and life standing. What stands out to you from these verses? How have resources (or the lack of resources) shaped your outlook on life?
